

Streamspin Service Invitation Service

By Lars Tabro Sørensen, Martin Møller Larsen and
Anders Skovsgaard

Outline

- Invitation service
 - Idea
 - Demo
- Panoramio Service
 - Status
- News Broadcaster
 - Status

Idea

- Broadcast invitations to subscribers
- Direct subscription to events
- Online Payment

Demo

- [Invitation Broadcast](#)
- [Emulator](#)

First Service - Panoramio

- Working:
 - Ripping Panoramio
 - Showing "close" pictures based on location
- Not Working:
 - Receiving coordinates from streamspin
 - Individual messaging not supported (publishprivatecontent)

Second Service – News broadcaster

- Working:
 - Broadcasting news to all users
 - Subscription system
- Not Working:
 - Individual Messaging

Streamspin Improvements

- Individual Messaging Functions
- More precise API description on the webpage
- Login on emulator doesn't check password
- A more clear illustration of how to develop
- The page is not straight forward
- The system doesn't support Windows Mobile 6.0
- No possibility of hosting
